About Jim Marchant for Secretary of State

President Donald Trump describes Jim Marchant as a "Legendary Businessman". As a businessman, he was tired of the government punishing job creators so Jim decided to take matters into his own hands, he ran and defeated a tax-raising moderate/liberal Republican in the Nevada Assembly District 37 in 2016.

While in the Nevada Assembly, he fought against the Establishment in both parties for lower taxes, less burdensome regulations, gun rights, and a more transparent government. He was ranked the top conservative legislator with conservative groups such as American Conservative Union and Nevada Policy Research Institute. In the 2020 election, Marchant ran for Congress in Nevada's Congressional 4 and nearly defeated Steve Horsford despite being outspent 3-1 and widespread Democratic coordinated election fraud.
